PRACTICE—PLEADING.

Andrew Lecter and all art. Barnett Levy and Sarch Pakker.
INCRAMAM, F. J.—The plaintiffs bring this action to receiver from Barnett Levy, the amount of certain indebtedness, and to enforce the payment thereof against certain real estate held by the defendant, Pakker, moder a conveyance from Levy, made after a mortgage from Levy to the plaintiff, upon some interest therein had been executed and recorded. These facts are set cut in the complaint, and the plaintiff's claim for relief asks to have the interest in the real estate mortgaged to the m. applied to the payment of the debts, and for a judgment against Levy.

The defendant. Parker, demors to the complaint because it does not state a good cause of action and because concree of action are improperly joined together.

The pleading is not very artificially drawn either as an averter or demurrer; but the avowed object of the Code being to leave parties to a more statement of their case, it is not necessary that such nicety should continue to be deemed necessary as before the adoption of the Code. Whether the pleading professes to be an answer or is called a demurrer if it only raises questions of its was to the matters contained in the complaint, we should regard it as a demurrer.

The motion is to strike out the demurrer as frivolous, and most, I think, he granted.

The cause of action, as stated, is sufficient. It is

and most, I think, be granted.

The cause of action, as stated, is sufficient. It is nothing more than the foreclosure of a mortgage and claim to recover against the debtor, and all the facts necessary to establish a right to such money, are well

necessary to establish a right to such money, are well stated.

Nor was it ever a good objection, even before the Code, that such relief was sought for in the same action. It always has been allowed, and under the Code may with much more propriety be claimed.

The motion for judgment must be granted, and for the appointment of receiver of the rents, &c., of the property as prayed for in the complaint.

It was Mayer, et al., ast Ferdinand Lec.

The defendant was sued for a bill of goods sold by plaint fis, and held to bail for fraudulently contracting the debt. He has now moved to be disabarged from arcest. There is nothing in the papers which shiws that the defendant ever purchased any goods of the plaintiffs. On the contrary, the evidence is clear that the sale was to one Dale, who was recommended to the plaintiffs by the defendant. No credit was given to Leo, and I can ree no ground on which he can be tested as the purchaser, or can be said to have francial testing contrasted the debt. He may be responsible to the plaintiffs in an action for a faise recommendation that in the present action there can be no recover against him.

The order for the defendant's arrest must be was:

against him.
The order for the defendant's arrest must be waen' ed. The order for the defending a arrest must be vacated on the defendant supulating not to bring an action. Defendant's costs, \$10, to abide event.

Without letterment to, act George P. Lorit, acc.

Order of reference to James Maurice, eq.

Metion granted to strike out the portion of a given denying that spainted is owner of the note, and denie I sale, residue of access.

SECOND BOARD.

MONDAY, Jan. 12-P. M. The Stock Market was firm to-day, with a fair activity. There was a good demand for the leading fancies at improving prices. The buoyant feeling was sustained at the Second Board, and the market closed firm. Erie was 624 à 624; Reading, 84 2844; Central, 931: Toledo, 771; Michigan Southern, 881; Michigan Central, 931; La Crosse, 73; Illinois Central, 125, &c., all showing an improvement on Saturday. There was an improved demand for Illinois Central Bonds, which advanced to 97 a 971. In other descriptions there was not much doing. Of State Stocks \$36,000 sold at about

previous prices.

There is a fair amount of business doing in foreign Exchange for the Wednesday packet from Boston, and rales are about as before quoted. The supply of bills is large and backs are large drawers. Sterling is 81 a 82 for leading signatures, with first class commercial names at 8 a 82 per cent. Advices from New deciding the sterling in the sterling is 8. Orleans to day by telegraph quote a decline in sterling to 1061 a 1061, which with sight Exchange in New York at | per cent discourt, makes the bills cost about 1677 here. Very good New-Orleans sold here to day at 1077. France are 5.25 a 5.20.

at the abatement. To Liverpool, 200 bbls. Flour at 2s. 3d. a 2s. 6d.; 40,000 bush. Grain at 7d., in bulk; 500 bales Cotton at 3-16d, 27-32d.; 300 bbls. Lard at 25s.; 400 boxes Bacon at 25s. To London, 1,000 bbls. Flour at 2s 101d. #3s.; 150 pkgs. Lard at 30s; 500 bales Bacon at 30s. To Glasgow, rates continue nominal.

The busines of the Sub-Treasury was: Receipts, \$110,309 (8; payments, \$125,648 42; balance, \$11,696,-876 20.

In Money in stook circles the increased case noticed on Saturday continues to be exhibited, but with a somewhat increased demand. There is but little difficulty in finding money for stock loans if the security is satisfactory. Paper does not improve any, and the supply is rather more pressing.

We understand that the Buffalo and State Line Road has made a dividend of 5 P cent in cash and 20 P cent in stock. The stock dividend, however, is coningent upon a vote of the stockholders to be taken in few days upor the question of increasing the capital. It is not very probable that the stockbolders will vote

against the increase under the circumstances. Judge Davies has granted a stay of proceedings in the case of the "Empire City Bank," and its stockholders will now escape any further assessments to pay debts in curred before its failure. Judge Davies decided that the time allowed by the statute to assess stockholders having expired, they have coased to be responsible.

The steamship Asia, from Liverpool, brings on freight £3,300 sterling, \$20,000 in gold, and 75,000 francs. This is probably all doubloons, intended for Havana. The Cahawba, for New-Orleans, took \$100,000 is specie, of which \$30 000 was for Hayana.

The busicess of the Clearing-House was \$31,564,000. The foreign advices have had a favorable effect pon Breadstuffs. Flour, with good demand, is 5 w 10c, better. Wheat is held with great firmness, and Corn bas an upward tendency. In Groceries there is not much doing, except in Coffee, of which 3,000 bags sold at 91 wille. Sugars are buoyant but quiet. New Teas are held above the views of buyers. Pork is firm and active, as is Beef also. The effect of the news on Cotton has not yet been shown; the sales are 1,500 bales, at full prices.

The weekly Bank statement shows the specie reserve nearly half a million larger than was generally anticipated, the loss during the week having been less than \$100,000, notwithstanding the drain to the South, the accumulations in the Sub-Treasury, and the shipments to Liverpool. This is very favorable, especially as we have at hand at other California arrival of prohably a million and three-quarters, with an almost entire cessation of the demand for bars for foreign shipment. The line of loans has increased \$1,000,000, and the deposits, although showing nominally a decrease of \$5,000,000, have, in fact, increased \$600,000, the undrawn deposits being \$64,316,000, against \$63,678,000 for the previous week. The great movement in deposits is the American Exchange, which shows a loss of \$1,300,000. The figures, as compared with last week, are:

percese ... \$1,001,000 Dec. \$2,100 D. \$275,710 D. \$5,190,500

for the 4th of February.

The Asia brings favorable financial advices, although being Christmas week business had been consider ably interrupted and Consols show an improvement of w ? P cent. There had been an active demand for mercy, but the supply had been good. A further reduction of the bank rate of interest was not immedistely expected. Cotton was very firm and active, and Breadstuffs were doing better. Baring's Circular reports American Stocks without any marked change. snada Sixes were not so firm at 113. The Circular of D Rell, &n & Co , reports that during the week there had been a good demand for American Stocks. In Railroad Securities there had also been & fair amount of business, chiefly in the bonds of the Illinois

Central and Michigan Central Railroads. Central and Michigan Central Railroads.

Mr. Satterthwaite says:

We have had a steady market for Public Securities during the past week. Money continues in good demand, as is usual at this seasor of the year. Consols have remained steady without as y important fluctuation, and close firm at \$4.094;

The market for American Securities in London during the past week has been steady, with a fair amount of transactions in the leading Securities. Pilosis Construction 7 & cent South have brought \$7.6 & cent do \$4.5 Shares 15; promiss.

We note a Saw transactions in the Jolies and Northern Indiana \$4.0 central \$4.0

At Paris the rate of interest is 6 ? cent, at Frankfort and Berlin 5, at Brussels 4, at Hamburg 7, and at Ansterdam 51 P cent. The run upon the Irish Banks for gold is now con-

sidered as over. The Bank of France baving at length announced its intention to discount commercial paper of three months date. The Liverpool Times says: The demand for money both at the Bank of England

and at the discount houses in Lombard street has been very active, but this state of affairs is o', a natural consequence of the ordinary momentary movements at the end of the year and of the rapid payments to the credit of revenue; and all heagh a return to compara-tive case may be expected at the time of the dividends, it nust be borne in tailed that the advances which will tive case may be expected at the time of the dividends, it nust be borne in tabed that the advances which will then have to be repaid to the Bank will amount to a large total. The amount lent out by the Bank of England during the past week has been very large, and included a considerable amount of gold coin to the National and other Irish Banks, to enable them to meet the extraordinary drain upon their bullon, which has, however, subsided for the present. The arrivals of specie have been very moderate, and a considerable portion has been on Continental account.

The return from the Bank of England for the week ending the 20th of December, gives the following results, when compared with the previous week:

Public deposits. 25,901.89 Increase. £20.24
Other deposits. 25,901.89 Increase. £20.27
Rest. 324,386 Increase. 19,217
On the other side of the account:

Government securities. £10,750,431 Increase. £22,564
Other securities. 11,7,654,460 Increase. £25,702
Notes incomployed. 5,983,290 Increase. £35,703
The antomit of notes in circulation is £18,513,040, being a decrease of £189,770 and the stock of bullion in both department is £10,513,823, showing a decrease of £187,703 when compared with the precoding return.

Messrs. E. W. Clark, Dodge & Go. offer for sale

\$100,000 of the Eight Per Cent Bonds of the City of Keckuk, Iowa, issued to the Keckuk, Fort Des Moines and Minnesota Railroad Co. Interest payable semi-annually in New-York. The circular issued by

Messts. Clark, Dodge & Co. says:

Messts. Clark. Dodge & Co. says:

"The stock is piedged by the City as security for the bonds in addition to the faith of the City), and a guaranty by the Railroad Company of the prompt payment of the principal and interest.

The bonds are convertible into said stock.
The whole amount of the subscription by the City of Keokuk to that road is \$400,000, of which amount only \$100,000 of the bonds will be offered for sale at present.
The Charter of the City invests the City Council with full power to issue bonds &c., and the City Council has passed an ordinance to that effect, which being submitted to the people at an election duly called, was ratified by an almost unanimous vote in favor of said subscription, and issue of the bonds to this road.
The entire debt of the city is as follows:
Bonds issued for improvement of Streets and Levee \$84,000 00 Subscription to Keckuk and Fort Des Moines RailToad.

S40 40. The Governor stys:

There is now no doubt about the State being prepared to pay the interest upon her whole debt as it matures in future. The payment of interest for the past ten years having been only partially made each year to July last, it would seem but just that as the State is now paying her full scoruing interest, that all arrears of in erest should be funded and put in condition of other debts of the State.

As a citizen of the State.

As a citizen of the State, I look upon her condition with unmingled pride and ratisfaction. In a few short years she has risen, almost Phoenix like from a state of hoseless despondency to a most enviable position. In less than seven years she will be entirely free from debt. Her expenses will be paid without a dollar of taxes from her people, and she will bave a large revenue surplus at her disposal. A brighter destiny, it seems to me, can harely be the lot of any State.

The Govenor estimates that the 7 % cent of the gross receipts of the Illinois Central Railroad, to be

ther, that the holder of the said Bonds, or any of them, may at any time within ten years from the da'e thereof, exchange the principal of said Bonds, or any of them, for steck in said Railroad Company at par, and the said City of Keckuk is irrevocably bound to transfer to the holder thereof, stock of said Railroad Company, on domend of the holder thereof, or his, her, or their agent, or attorney, within the time specified, for an amount equal at its par value to the principal which may be due thereon at the time of such demand, upon the surrender of said Bends, or any of them, and the unpaid coupons, to said city; and further, that the stock sally scribed as aforesaid to said Railroad Company shall be sacredly set apart and preserved for the recemption of the principal of said Bonds, and shall not be used otherwise for any purpose while any of said Bonds are outstanding, and the dividends from said Bonds are outstanding. The payment of the interest on said Bonds.

"That at the same time that the other annual taxes."

Keokuk is situated on the west side of the Mississippi River, at the mouth of the Des Moines and at the toot of the first rapid, and is the head of navigation of the Lower Mississippi. It is on the western bend of the Mississippi River, about 201 miles from St. Louis, and 125 miles from Davenport and Rock Island.

The situation for a large city is very commanding, being on a high bluff, having a fine and unobstructed view of the river for several miles above and below. Keokuk is now doing the largest wholesale business of any town on the Mississippi River north of St. Louis. The improvements and buildings are of the most substantial kind.

Steamboats can reach Keokuk from below at all sea-

The valley of the Des Moines has long been known

as the "Garden of the West," the lands are more fertile than the best portions of Indiana and Illinois. They are beautifully situated, with no lone or waste places, but rolling and undulating throughout and well upplied with fine streams of pure, clear and quick in ling water.

Fort Des Moines has recently been established the seat of Government, and the capitol located there. Every railroad across the State will be a feeder, thereby reaching the Mississippi River at the nearest point
